Docket Position: Against

AZ should be doing everything possible to increase solar generation of energy, not decrease it! I cannot believe I live in a state, in a country that doesn't actively promote alternative energy. It makes me sick and very sad. Trico, even though it's a coop acting as a corporation, should be vehemently denied in their request to make it more expensive for solar customers while promoting their own self interests. It's a blatant attack on the solar industry. The drought stricken western states should increase their economic support of the solar industry.
